

INDIRECT SERVICES

The Indirect Services program facilitates the transfer of probationers who are living, or intend to live, in another county within the state of Arizona. Both felony and misdemeanor cases may be transferred to another county within Arizona, pending acceptance by the receiving county in accordance with the Intercounty Courtesy Transfer Rules contained in the Arizona Code of Judicial Administration. At times, probationers may be required to return to the sentencing county depending on progress and performance on probation. Yavapai County Adult Probation strives to place probationers in other counties within the state, upon request, in order for them to attain support and success on probation.
